

I W G S C

International Wheat Genome
Sequencing Consortium

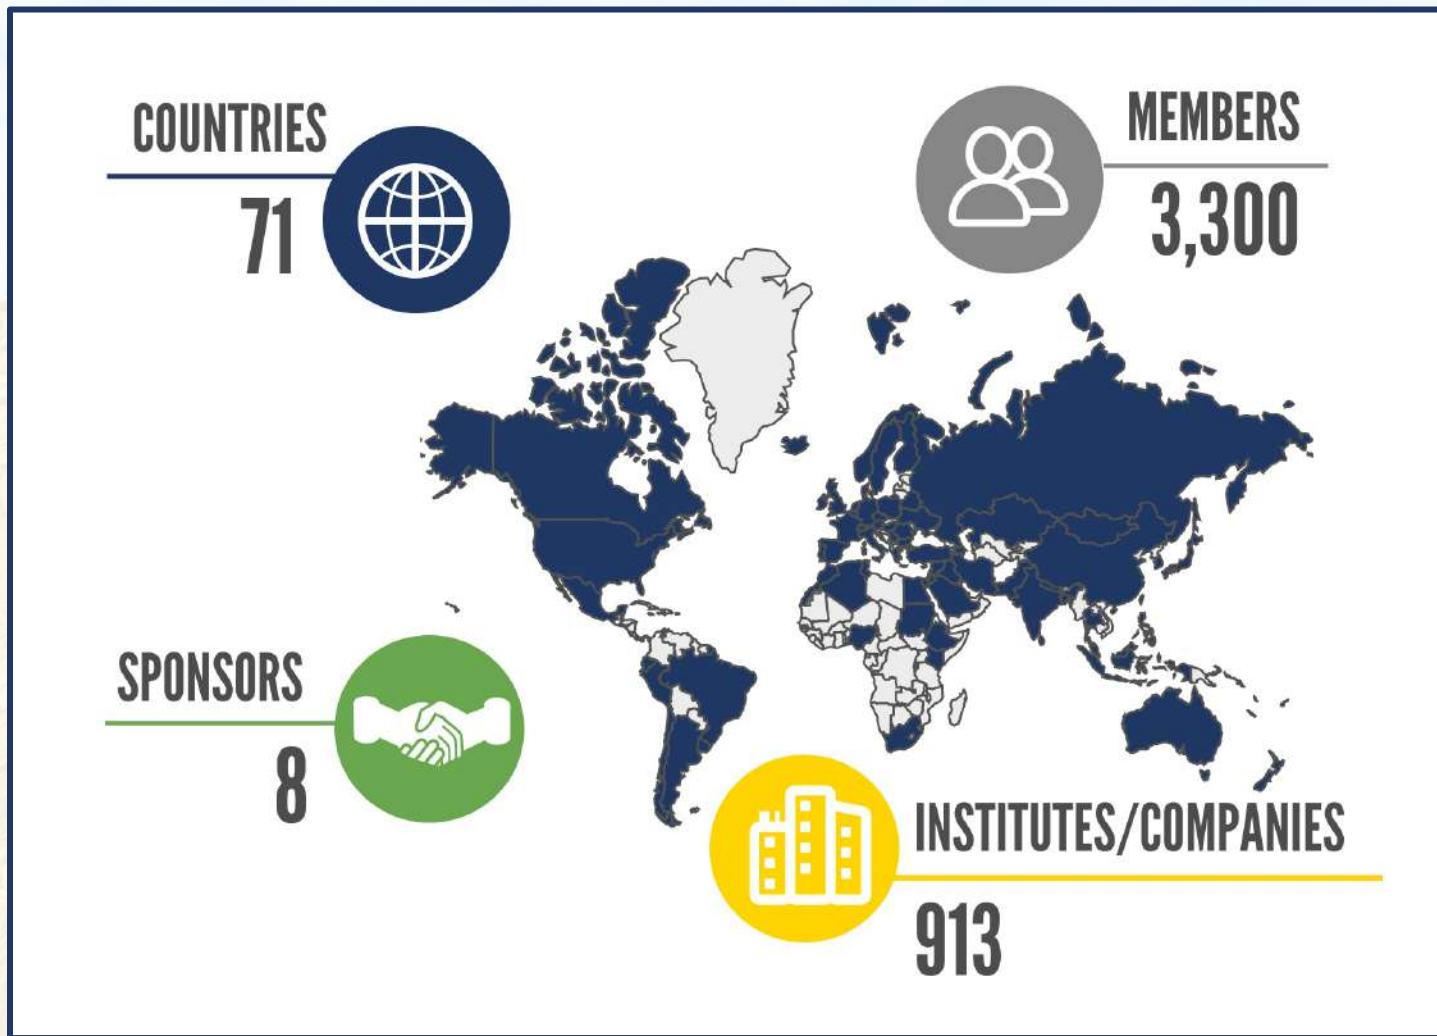

IWGSC Webinar Series: Introduction

24 September 2021

Kellye Eversole
IWGSC Executive Director

The International Wheat Genome Sequencing Consortium

IWGSC Sponsors

Enhance breeding through an increased understanding of the molecular basis of traits and their allelic diversity

IWGSC 2021 Activities

- ▶ Expansion of the IWGSC-Arbor Biosciences collaboration and develop other collaborations
- ▶ Publication of IWGSC RefSeq v2.1 and IWGSC Annotation v2.1
- ▶ Publish clear process for contributing to manual and functional annotation
- ▶ Starting IWGSC Wheat Diversity project – reference sequences of at least 8 landraces representing breadth of wheat diversity
- ▶ Pre-publication releases of genome sequences for elite wheat varieties and other genomic resources
- ▶ IWGSC Webinar series

Next Webinar: 28 October 2021

- ▶ **Interaction between wheat *cis*- and *trans*-factors in shaping regulatory networks**
- ▶ **Presenter: Yijing Zhang, School of Life Sciences, Fudan University, Shanghai, China**
- ▶ **Registration: <https://attendee.gotowebinar.com/register/3781446304398177549>**
- ▶ **Time: 10:00 am EDT, 4:00 pm CEST**

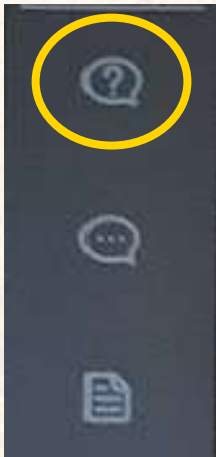

IWGSC Webinar dashboard

- ▶ The webinar is recorded and will be posted on the IWGSC YouTube channel in a few days. Subscribe to the channel to never miss a new upload
<https://www.youtube.com/c/internationalwheatgenomesequencingconsortium>

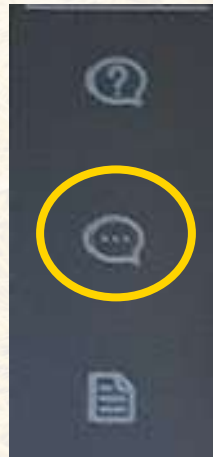

- ▶ The presentation section will be followed by a Q&A

Questions

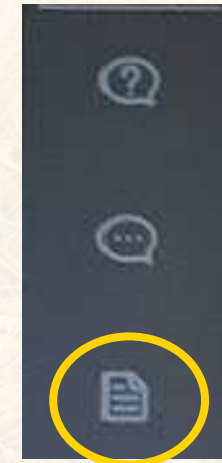

Submit your questions in the Q&A panel

Chat

Monitor the chat panel to see messages from the organizers

Handouts

Download handouts from the presentations in the handout panel

▶ **Wheat to eat: accelerating plant breeding to address global food & nutrition security**

▶ Presenter: Alison Bentley, Director
CIMMYT Global Wheat Program

Thank you for your participation!
